"Colours are the smiles of nature." – Leigh Hunt

Dear Parents,

At GD Goenka Mohali, learning is not just an individual journey—it's a shared experience filled with creativity, curiosity, and collaboration! As we continue our VIBGYOR - Rainbow of Learning - our next exciting stop is the mystical world of Indigo on Wednesday, April 9, 2025.

This isn't just a celebration of colour—it's a collaborative learning adventure where students will engage in hands-on exploration, discussion, and creative expression through teamwork.

How Can Our Little Explorers Participate?

- Dress in Indigo – A fun way to visually immerse in the theme!
- Bring a Indigo-Coloured Object – A toy, stationery item, cloth, or anything in violet to spark conversation and shared discovery.
- Team Activity – Engaging with peers in group-based colour-mixing experiments, storytelling, and art projects to explore how indigo connects with science, emotions, and creativity!

This experience is designed to encourage children to observe, collaborate, and express their understanding of colours in a meaningful way. Through shared discussions, interactive experiments, and creative play, they will build connections between colours and the world around them.

Let's make this day vibrant, engaging, and full of discovery!

Looking forward to a colourful and enriching experience together!

Regards

Principal
